“BIKE TO THE BRIDGE”

The League of American Bicyclists is proud to endorse the Buffalo and Fort Erie Public Bridge Authority’s “Bike to the Bridge” event...

Public education and promotion of bicycling and walking across this iconic border crossing via the Peace Bridge event is a great image of our cooperative vision and work to create more bicycle-friendly countries – a North America that recognizes the benefits of bicycling for the environment, personal health, and improving quality of life. The League works to promote bicycling for fun, fitness and transportation, and we do this through advocacy and education. We work across our nation to ensure bicyclists have a safe and enjoyable ride, while ensuring their right to the road. The League enthusiastically supports the “Bike to the Bridge” event and looks forward to partnering with our neighbors to the north to build more bridges for bicycling.
